ISY SERIES

Specification

The light shell is die-casted using high-quality aluminium. With the latest LEDIL's Strada 2x2 T2 street lighting optic series specially designed for street lighting, they provide high efficiency and uniform lighting which saves up to 85% energy. The integrated molding of the lamps and electric appliances gives the product its compactable size and trendy appearance. The protection of the product is IP66 rated for its resistance to moisture and dust. This design is suitable for streets, parking spaces, highways and parks in villages.

Input Voltage	100-240Vac50/60Hz.	Lens Material	PC+Glass	Housing	Aluminium Die Casting
Input Voltage Range	100-305Vac50/60Hz.	LED Light Source	Everlight	Finishing	Powder Coated in gray
Power Factor	>0.95	CRI	>70	Gasket	Rubber
Beam Angle	70°/150°	CCT	2700K, 3000K, 4000K, 5000K, 6500K	Surge Protection	10kV
Work Temperature	-10°C to + 65°C	Driver	Moso, Sosen Meanwell, Inventronics	Soft Start	10% to 100% in 1 min.
LED Life Time	50,000 hrs.			IP Rating	IP66
				Warranty	3 Years

Model	Power (W)	Luminous Flux (lm)	Efficiency (lm/W)	Weight (Kg.)	Dimension (mm.)	standard
ISY-80	80	12,000	150	4.00	519x297x111	
ISY-100	100	15,000	150	4.00	519x297x111	
ISY-120	120	18,000	150	4.00	519x297x111	
ISY-150	150	22,500	150	5.50	610x297x111	
ISY-180	180	27,000	150	5.50	610x297x111	
ISY-200	200	30,000	150	6.50	700x297x111	
ISY-240	240	36,000	150	6.50	700x297x111	

IEC : 61000-4-5 The International Electrotechnical Commission's international standard on surge immunity.

IEC : 60529 Ingress Protection Rating

IEC : 60598-2-3 Particular requirements - Luminaires for road and street lighting

IEC : 62262 Degrees of protection provided by enclosures for electrical equipment against external mechanical impacts

STREET LIGHT

LENS

These parameters [Lav, U0, UI, TI, SR] can meet the requirements. In accordance with CIE140 / EN13201 (ME3 ~ ME5) requirements, through simulation, this narrow light distribution is ideal for illuminating sidewalks, trails and sidewalks.

Narrow light distribution can also be used for dual lanes. You can use this type of light distribution on wide sidewalks, side roads and auxiliary roads. According to the requirements of CIE140 / EN13201 (ME3 ~ ME5), by simulation, these parameters [Lav, U0, UI, TI, SR] can meet the requirements.

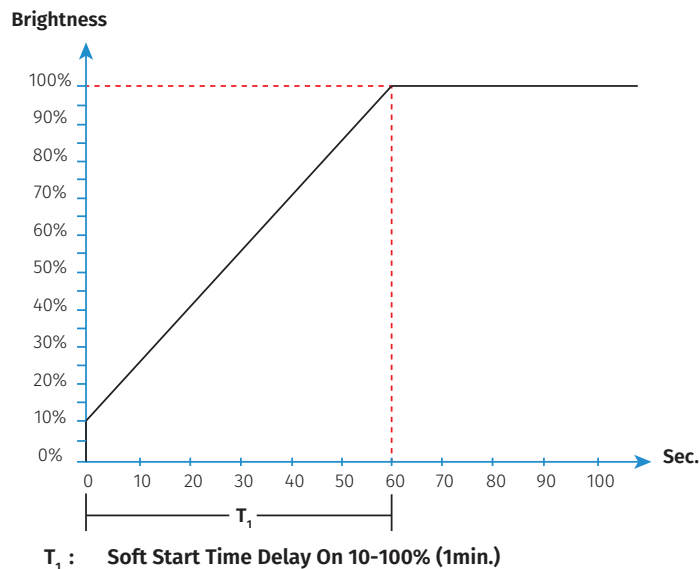

The wide light distribution is ideal for freeways, expressways and urban arteries. The step height ratio of the point can reach 3.5. According to the requirements of CIE140 / EN13201 (ME1 ~ ME2), through simulation, these parameters [Lav, U0, UI, TI, SR] can meet the requirements.

The wide light distribution is also ideal for multi-lane roads. You can use wide light distribution for multi-lane arteries, downtown roads, etc. The pitch height ratio of the point can reach 3.5. ME1 ~ ME2, through simulation, these parameters [Lav, U0, UI, TI, SR] can meet the requirements.
